E.S.R.			2		mm/hr	(1-20)

71984953 Automated Comment:

As per ISLH guidelines - Film not reviewed. If a film review is truly indicated, contact the laboratory within 24 hours of collection. Otherwise investigate any highlighted abnormalities as clinically appropriate.

An apparent Eosinopenia is present - this is often a benign variant, but can be associated with infection, steroid excess, dysgranulation disorders, or very occasionally and paradoxically some "Eosinophilic" Disorders without an eosinophilia. Correlate Clinically.
