

⊛ + Endocrine

Titus - follow up

⊛ 8 wk (Rnd 4 - detox)
3/3/25.

He's doing well overall.

Mpm + Titus have been ~~un~~ well over Xmas / N.Y. time but once started Rnd 2 settled in well.

Last few weeks he's showing initiative to take our remedies.

Was more ^(upset / angry) aggressive / door slamming when not ~~taking~~ home consistently.

Last 2 wks been communicating better than before - seems more capable + confident.

Anesthetic detox done @ end of round.

Some improvement bef. detox.

Anger / upset - less frequently - more stable emotionally - less often.

Seeing more creativity top egg
Lego creations. - now building
from own imagination
more faith in self.

⊛ Rnd 3 - add cognition / speech /
brain development.

⊛ ④ - < corn + add Nutrition
support.
