Dear Ms Hookham,

Re: Mr Liam Robert Edward Burbridge

Thank you for seeing Liam, a 22 yrs old for counselling and appropriate therapy under Medicare item 2700-2717, for depressed mood and anxiety. Liam has struggled with a very low mood over the past 6 months in the context of a relationship breakdown, and has recently been struggling to attend work regularly as a result. Given the severity of his reported symptoms, we have also started an SSRI (10mg escitalopram daily). Thankfully, he has a supportive family who he is open to about his current situation and are likely a key protective factor at present. Please refer to a copy of the completed Mental Health Treatment Plan, with the consent of the patient. I look forward to receiving your written report regarding this patient upon completion of the sessions.

Yours sincerely,

Dr Matthew Kirkwood
