ERSKINE WA 6210

Patient Phone #:0457 175 898

DOB:15/05/90 Age:33 Years

Sex:Female

DR LY, TAPRAYA

Collection Date: 18/05/23 10:00 AM

Reported:

22/05/23 09:12 AM

UR: NA

Lab #:23-82557923

Ref:00602940

Phone: 13 61 99

Dr Johannes Conradie

Holo TC Assay (Siemens Atellica)
(Serum Active Vitamin B12)**20** pmol/L

(> 40)

Comment:

Mild vitamin B12 deficiency.

If not already performed, screening for Pernicious Anaemia (PA) with intrinsic factor antibody (IF-Ab) and gastric parietal cell antibody (GPC-Ab) is recommended.

Because of the association between PA and thyroid disorders, it may be prudent to check TFTs and thyroid antibodies. Co-existing iron deficiency should not be overlooked.

Note from 19/07/2021, the Active B12 method has changed, and there has been a small adjustment in the reference range.

Instrument: Siemens Atellica

Haematologist: Dr Dejan

Radeski
