Fax: 02 6792 5521

Delivery Method: EDI

MRN: 2490835/N0304741
Patient: KATRINA DERHAM
DOB: 31/05/1982

Ward/Clinic: NDH Outside Referral

Reported By: Dr John Pedersen
(Lumus)

Address: 33 REID STREET
NARRABRI 2390

Exam Date: 27/02/2023 10:00 AM

ULTRASOUND PELVIS

Clinical History:
Followup.

Findings:

Nabothian cyst noted within the cervix. Uterus 35cc in volume with a homogeneous appearance. Regular 3mm thick endometrium. Right ovary 2cc in volume seen transabdominally. Left ovary not seen.

Comment:

Nabothian cyst seen but endometrium difficult to assess due to patient presentation. No definite evidence for cystic endometrial hyperplasia on ultrasound.
