Dear George,

Re: Master Barker Moore (DOB: 24/10/2017)

Thank you for seeing Barker for consideration of adenoidectomy. He has always been a mouth breather, and has constant nasal congestion. We have trialled him on nasonex allergy spray with nil real improvement. His sleep quality is poor, waking multiple times and getting distressed saying he "can't breathe" at night.  
O/E he has bilat otitis effusions. Tonsils are Gd 2 today
