Mening	04/27/2022	04/27/2022	04/27/2024	04/26/2033
MMR		Complete		
Pneumococcal		Complete		
Polio		Complete		
Td/Tdap	08/29/2020	04/27/2022	08/29/2026	
Varicella		Complete		

Risk Assessment and Lead Test Recommendations

Although routine risk assessment based blood lead testing is not required for children either less than 6 months of age or those six years and older, health care providers may choose to test children at any age for blood lead based upon their assessment of the child's risk.

- Click here to review the [NYS Guidelines for Health Care Providers for the Prevention, Identification and Management of Lead Exposure in Children](#)
