To whom it may concern

Re: Mr Benjamin WALLER D.O.B: 16/11/1996

172 NEVILLE STREET SMITHFIELD NSW 2164 File No: 15781

This is to certify that I am looking after the above named gentleman from a cardiovascular point of view. He had the first jab of the Pfizer vaccine for coronavirus on 28 August 2021 and since then has had increasing episodes of palpitations and chest pains. The symptoms are highly suggestive of pericarditis and this was confirmed on echocardiography. He is now on the appropriate medications. Under the circumstances, I would recommend that the second vaccine shot should be withheld until further notice. Any help given to him in this regard would be highly appreciated.

Yours sincerely,

Aggrey Kiyangi

Consultant Cardiologist
