Dear Mr Boric

I refer to your email dated 24 January 2022 seeking my endorsement, as the Chief Public Health Officer (CPHO), of your medical exemption from receiving the COVID-19 vaccine, as certified by your medical practitioner in your Immunisation Exemption Application Form.

Your exemption application was assessed by the COVID-19 Vaccine Exemption Committee ("the Committee") who have recommended that I endorse your medical exemption for the purposes of a Direction relating to COVID-19 vaccination made by the State Co-ordinator under the *Emergency Management Act 2004* (the Act).

I have considered your application and supporting information, along with the recommendation of the Committee, and have determined to endorse your medical exemption from receiving the COVID-19 vaccine for the purposes of the Direction. This medical exemption is valid for three (3) months from the date of signing. You are encouraged to be fully vaccinated against COVID-19 as soon as your medical condition permits.

In accordance with the Direction, you are required to provide the operator of the setting you work in with a copy of this endorsement.

Yours sincerely

PROFESSOR NICOLA SPURRIER
Chief Public Health Officer

28 / 1 / 22

Please Note: Not all medical exemptions from receiving the COVID-19 vaccine need to be endorsed by the Chief Public Health Officer. Please read the information in Attachment A to ensure this is a requirement that applies to you.
