## Colonoscopy Report

Many thanks for your referral

Item No. 32222 + 32229

**Indication:** Abdominal discomfort, flatus, bloating

**Diagnosis:** Colonic polyp  
Suboptimal faecal clearance in colonic segments

**Procedure:**

**Bowel preparation:** Average

**Insertion:** Caecum and terminal ileum (5 cm). The flexures and recto-sigmoid were double-examined. Rectal retro-flexion was performed

**Findings:** A 6mm transverse colonic polyp was removed, small grade I internal haemorrhoids were present.

**Withdrawal time:** 8 min

**Histopathology:** 4cyte

**Follow Up:** GP follow up; suggest fibre supplementation and stool softeners for bowel clearance. Consideration of low FODMAP diet may assist.

**Date:** 14/10/2021
