BABY

Congratulations on taking the first step towards a healthier, happier Baby!

Over the next six months we'll be working together to rid the body of irritants that cause suffering and pain, and providing it with what it needs for greater well-being.

What's more, aside from a little commitment, it's easy! All you have to do is follow a few simple guidelines set out in this report. Here are a few important things to remember before we get started:

Step one

If breast feeding, follow this eating plan as well. Items in RED have tested Incompatible for your baby's immune system and are to be avoided. Fill in Meal Diary and return it to your Consultant.

The completed diary will give us a detailed look at the foods you/baby are currently eating.

Step two

Your Consultant will give instructions on removing the InCompatible foods and replace them with the Compatible foods listed in Black in this report.

Step three

Your corrected Meal Diary will be your/baby food list for the next 4 weeks.

It is Ok to mix any foods in the corrected list. At week 4, consult your Consultant for further instructions.

Clients choose us!

The Compatibility PROGRAM

NOT AN ALLERGY TEST

Foods known to have caused anaphylaxis response, plus any known reactive foods, **SHOULD NOT BE REINTRODUCED**

The Compatibility Programs focal point, is at a much deeper level.

ABOUT THE COMPATIBILITY PROGRAM

The purpose of this test is to correct the underlying problem that is causing your symptoms. This is not an "allergy" or "intolerance test". There are hundreds of components like fats, sugars and proteins that make up foods and it is impossible to accurately test for these individually as they appear in different combinations. We test whole foods not individual components. Locating "allergic" foods and removing them usually relieves symptoms, but often does not get to the cause. The situation is that some food/products cause the symptoms while others aggravate the symptoms.

These aggravations are what people usually pick up on. The pain is usually severe and immediate.

At this stage there is no technology that we are aware of that can separate these reactions.

This Alternative test is used only through qualified Practitioners.

6 MONTH PROGRAM

SEE THE DIFFERENCE

Simply follow this quick two-step process:

Step 1 - Mark the percentage by which you feel each symptom has improved (relative to the commencing the program). Please bear in mind that some symptoms might get worse before they get better. If this happens, don't be discouraged, — make a note of it and talk to your Consultant about any concerns you may have.

Step 2 - Return completed form to your Consultant to discuss these results at your next appointment.

This report allows you to monitor your progress while you are following the Compatibility Program. As time goes by, it becomes increasingly difficult to recall exactly how you were feeling.

Filling in this table will give you a tangible way to plan your recovery.

This will keep you motivated to stick with the program and help you see how your body is responding to the program.

You will also be able to tell with greater certainty whether your symptoms are easing.

It only takes a few minutes at most each week, and you will be amazed at the results.

PROGRESS REPORT

SYMPTOM	WEEK 1	WEEK 2	WEEK 3	WEEK 4

QUESTION AND ANSWERS

HOW MUCH HAIR IS NEEDED?

Approximately ½ tsp cut from any part of the body. If no hair, use saliva on a cotton bud.

Place in a small plastic zip lock bag.

DOES IT MATTER IF MY HAIR IS COLOURED?

No, the equipment is calibrated to suit each hair sample.

HOW DOES THE EQUIPMENT WORK?

This equipment works on the electrical systems of the body. Every cell in the body requires electrical stimulation to function correctly. Incompatible foods and products can interfere with this electrical stimulation. All cells in creation have their own electro-magnetic signature. The electromagnetic field in the hair and the electromagnetic field of each food and product are brought together and either attract (COMPATIBLE) or repel (INCOMPATIBLE). The equipment is calibrated to a level which displays this on a computerized graph through a unique system of equipment and software.

HOW DOES THIS TEST DIFFER FROM THE SKIN PRICK AND BLOOD TESTS?

Those tests relate to allergy type symptoms. Underlying allergy or allergic symptoms there is usually a compromised immune system. (Poor cellular function)

Compatibility testing is designed at a level where we test for foods and household products that compromise cellular function. Poor cellular function leads to inflammation which is involved in most dis-ease states. The Compatibility test is testing at a much deeper level.

IS THIS AN ALLERGY TEST?

No, this is a compatibility test which tests for food and products that are either incompatible or compatible with each individual.

WHAT PROBLEMS MAY I ENCOUNTER WHEN I START THE PROGRAM?

On rare occasions it is possible to experience symptoms of elimination such as bad breath, coated tongue, excess mucus, gunk in the eyes etc. This depends on the level of toxicity associated with the condition.

Skin conditions may get temporarily worse, because skin is a large eliminatory organ.

Always talk to your Consultant if any of these symptoms happen.

HOW LONG BEFORE I SEE RESULTS?

Usually symptom relief can occur in 3-10 days as the inflammation settles.

By the end of 4 weeks the body is in repair process stage.

Results may vary on the severity of symptoms.

WHY DO I NEED TO ELIMINATE THE FOOD IN RED FOR 6 MONTHS?

Excess inflammatory mediators in the bloodstream can cause inflammation. Some inflammatory mediators live up to 120 days. To cover all scenarios and gain the maximum benefit for the client it is recommended a minimum of 6 months. Our experience has shown up to 75% improvement in symptoms at the 4-week stage is quite common. However, there can be some tissue damage which requires the body to need more time to repair. This is why we recommend a minimum of 6 months on the programme and then retest. Some items will take longer depending on compliance, others may never correct depending on the amount of tissue damage.

WHY CAN I ONLY EAT THE FOODS REMAINING IN BLACK ON THE LIST?

Every food or product that is not on the list is assumed as being incompatible to the body unless individually tested. This applies to other brands as well.

Eating as little as one incompatible item three times a week can slow down or stop the repair process.

HOW DO I REINTRODUCE THE FOODS THAT HAVE BEEN ELIMINATED?

There is a very strict procedure for reintroducing corrected items to help lower the risk of rebound. Reintroduction must be guided by your practitioner. We recommend retesting between 6 and 9 months. Full retest instructions are included in the Retest Report.

AFTER 6 MONTHS THE RETEST STILL HAS SOME OF THE SAME FOODS PLUS A FEW EXTRAS ONES. WHY IS THIS?

The original sample is tested on symptomatic level (the red zone) which rates between 60-80 on our scale. Under 60 the item is incompatible. During the 6 months it is very possible for the items at borderline level to present in the red zone. If previous foods in red are now in black it is recommended to slowly reintroduce this food to avoid a rebound of this item.

IS IT NECESSARY TO GET A RETEST?

If you reintroduce a food that has not corrected, symptoms may return and often be much worse. There is a likelihood that this could undo all what has been gained on the program. Retesting is recommended between 6 and 9 months. We find that around 75% of incompatible items will correct at this point. Some will remain and may take up later on. There may be a few new ones. The new ones are added to your first list for another 4 weeks. After the 4 weeks we have a very strict protocol for reintroducing corrected items.

MY RETEST HAS LITTLE IMPROVEMENT, WHY IS THIS?

Firstly, improvement is very dependent on the instructions being followed very strictly for the full 6 months. Secondly it could mean the body just needs more time. At this stage other influences such as viruses, parasites, and heavy metals may present and need to be dealt with. The major plus of this program, is it allows the body to heal in the order it wants to heal. For example, the main symptom may be headaches and minor symptoms, bloating, constipation and muscle aches. While on this programme the body will determine which ailment improves first, therefore the headache may be the first to go or the last symptom to go. When we treat ourselves symptomatically like taking a Panadol for the headache, we will get temporally relief only because the underlying cause has not been addressed.

IS IT NORMAL FOR MY SYMPTOMS TO GET WORSE?

It is possible to experience elimination symptoms such as bad breath, coated tongue, excess mucus loose bowels etc. This depends on the toxicity level associated with your condition. Skin conditions may get temporarily worse, skin being a large eliminatory organ.

WHY CAN I EAT POTATOES BUT NOT POTATO FLOUR OR CORN BUT NOT CORN FLAKES?

Processing and cooking changes the structure of the food. Synergism also plays a major part.

This means that a food or food component may test incompatible on its own but when cooked or mixed in with other ingredients that process can change the original reactivity.

Whole foods are tested; this means foods are tested as you eat them. E.g. 28 different species of tomatoes raw and cooked are tested under the item tomato.

WHY CAN I EAT COMMERCIAL CAGED EGGS BUT NOT ORGANIC EGGS?

The eggs composition will reflect what the hens are eating.

CAN I EAT ORGANIC MEAT IF MEAT COMES UP IN RED?

No, organic meat is included in the meat test.

WHY AM I FEELING UNWELL WHEN I EAT CHOCOLATE YET IT IS IN BLACK ON MY LIST?

It is possible the body is not digesting it well at this stage or elevating sugar levels. Mostly this situation corrects by the end of the program.

WILL THIS HELP ME TO LOSE WEIGHT?

Some people do experience weight loss on this program. The program assists the body to detox/eliminate better.

CAN I GET MY BABY TESTED?

Yes, the youngest baby we have tested was 2 days old. We do have specific protocols for conception, pregnancy and babies. Refer to your Consultant.

CAN I HAVE EXTRA ITEMS TESTED?

Yes. Ask your Consultant. A new hair sample will also be needed.

MY PET SUFFERS A SKIN CONDITION CAN I HAVE IT TESTED?

Yes. We have a pet test list as well. Ask your Consultant for details.

MY WIFE IS FROM ANOTHER COUNTRY AND COOKS DIFFERENT FOOD TO WHAT IS ON YOUR STANDARD LIST. DO YOU HAVE OTHER FOOD LISTS?

Yes, we have other lists including: United Kingdom, America, Dubai, Singapore/India, New Zealand. Other countries can be arranged. For your pets we have an Animal test.

I SUFFER FROM HAYFEVER TO DUST AND POLLUTANTS. HOW DOES ELIMINATING FOOD IN MY DIET HELP THIS CONDITION?

Eating incompatible food can cause inflammation of mucus membranes including the membranes in the throat and nose. When inhaling dust, fuel, perfumes etc these irritate the already swollen sensitive mucus membrane which may lead to Hayfever/sinus symptoms. When the incompatible foods are removed, it reduces the swelling therefore making the external environment more tolerant.

WHAT IS IRRITABLE BOWEL SYNDROME AND HOW WILL THIS TEST HELP ME?

IBS is an area of inflammation in the bowel. This program is focused on finding which food and products are causing inflammation leading to IBS.

I'VE TRIED A LOT OF DIFFERENT THINGS TO GET RID OF MY SKIN RASH AND NOTHING HAS HELPED SO FAR. HOW WILL THIS TEST HELP SKIN CONDITIONS?

Inflammation is common to most skin conditions. Skin conditions can be caused/aggravated by constipation. By improving elimination, we are assisting the skin to repair. This program is focused on finding which food and products are causing the inflammation.

I HAVE ELIMINATED DAIRY, PROCESSED FOODS, WHEAT AND SUGAR PRODUCTS IN THE PAST AND STILL FELT UNWELL. HOW WILL THIS TEST HELP ME?

Often wheat, sugar and dairy aggravate symptoms. Eating incompatible foods works collectively and we need to eliminate **all** to be effective. Eating one incompatible food three times a week is enough to cause inflammation and stop the repair process.

CAN YOU TEST MAKEUP AND SKINCARE PRODUCTS?

Yes. If you are not progressing well enough at the 4 week stage your Consultant can determine if further testing is necessary.

SHOULD I TAKE SUPPLEMENTS WHILE I AM ON THIS PROGRAM?

Your Consultant will advise on which supplements you need.

I AM FEELING BETTER CAN I COME OFF MY MEDICATIONS?

Seek advice from your prescribing practitioner before stopping or reducing supplements and medications.

WHAT IF I AM EATING OTHER FOODS NOT ON YOUR LIST?

Every food or product that is not on the list is assumed as being incompatible to the body unless individually tested. Eating as little as one incompatible item three times a week can slow down or stop the repair process.

RESULTS

As we are starting at a sub-clinical level, it can take time for some symptoms to disappear.

The technique is based on the way in which the food and products benefit the individual person.

Each person is unique and with this applies the, 'one size does not fit all' philosophy when it comes to food and household products.

Some people see symptom relief in a few days, while others have taken 6 – 8 weeks.

It all depends on how compliant you are with your Consultant's instructions and how much repair work has to be done at cellular level.

Compatible supplements, creams and medications may be prescribed to give symptomatic relief until the immune symptom corrects and deals with the problem.

Other factors (such as parasites, viruses, and heavy metals) can impact on the immune system as well and may have to be addressed. Ask your consultant.

PROGRESS – RE-ASSESSMENT while ON the PROGRAM

At different stages the Consultant will be able to assess your progress, and assist your experiences whilst on the program. Our aim is to have a good measure of symptom relief.

If you are not progressing well enough, the Consultant may look at other factors or simply give it more time for your body to repair and ask you to fill out another Progress Report.

It takes a minimum of six months for your body to repair. In the case of severe tissue damage, it may take even longer.

The number and frequency of follow-up consultations will be determined by your individual needs

COMPATIBILITY RETEST VOUCHER

RECOMMENDED BETWEEN SIX AND NINE MONTHS

To gain the most benefit from your Compatibility Program, it is important to retest between six and nine months from the time you started. This helps your Consultant to determine how your body is responding to your program, and to determine if any further modifications or other therapies are necessary at this stage.

We have found that, on average, 75% of foods and household products will correct within 6 months, however, some items take longer. If items are re-introduced too early, or too many at a time, there is a high risk that symptoms will return. In addition to telling you which foods/ products can be re-introduced, your retest report provides important information about how and when to re-introduce these foods/ products.

Get the most from your efforts in the program - Contact your Consultant to order your retest before the date indicated below. If Retests are done after 9 months, the body may have changed and it will be necessary to start the program again.

Contact your Wellness Consultant for Reduced Retest Fee.
