Thankyou for seeing Mark Andrews, age 75 yrs, for opinion and management. Mark is seeking a new cardiologist, and already has an upcoming appointment with yourself on 25/06/25. Mark had a previous MI in 2016 with CABG x 3 by Dr Melanie Freeman at Knox health service. He has previously been known to Dr Adam Hutchinson in Geelong, but is wanting a referral to yourself. He has elevated cholesterol, which I have attached, and is very keen to avoid statin therapy. He is otherwise stable. Your opinion and expertise would be greatly appreciated.

Past History:

	Myocardial infarction
26/05/2021	Androgen deficiency
22/10/2021	Gilbert's syndrome
