<u>Allergen Specific IgE</u>	<u>kU/L</u>	<u>Class</u>	
Cat epithelium	3.24	II	Moderate
Dog dander	0.91	II	Moderate
Grass pollen	1.05	II	Moderate
Dustmite	98.5	V	Very High
Alternaria alternata	14.9	III	High

Comment

Values between 0.1 and 0.35 kU/L may be found in early, low level or resolving sensitisation. Not all sensitisations may result in clinical symptoms. The greater the sensitisation, the more likelihood of clinical significance. A higher specific IgE index (amount of allergen specific IgE/total IgE) may indicate greater clinical significance.

From November 2012, the laboratory will only accept Medicare reimbursement for requests of upto four single allergens or two mixes or two single allergens and one mix. Requests for more will be billed at \$25 and then \$5 per single allergen, \$10 per mixed allergen and \$40 per individual allergen component.

Tests Completed: FBC(e),FILM,TCELLS,IgA(s),IgG(s),IgM(s),IgE(s),D1,E1R,E5,G4,M6. Pending:

DNaseB(s),ASOT(s)
