## THYROID ULTRASOUND

Clinical details: Anterior neck discomfort. ? Enlarged thyroid.

The thyroid gland is unremarkable. No nodules or cysts. No calcification in the thyroid gland. No evidence of an active inflammatory or infective process in the thyroid gland on Doppler assessment.

The thyroid gland is not enlarged. No retrosternal extension of the thyroid gland. The right thyroid lobe measures 3.2 x 1.2 x 0.9 cm. The left thyroid lobe measures 2.1 x 0.9 x 0.9 cm.

No adjacent cervical lymphadenopathy, mass or collection.

Thank you for referring this patient

Dr Khimseng Tew FRANZCR
