## THYROID ULTRASOUND

Thank you for referring this patient.

**Clinical History:** Strong family history of thyroid nodules.

**No prior imaging available for comparison.**

### Findings:

The right lobe of the thyroid measures 47 x 12 x 16mm (4cc).

The left lobe of the thyroid measures 41 x 12 x 12mm (3cc).

The gland is homogeneous. Normal vascularity.

There is a cystic TI-RADS 1 nodule seen in the inferior pole on the right.

There is no retrosternal extension or cervical lymphadenopathy.

The isthmus measures up to 2mm.

### COMMENT:

Essentially normal appearance to the thyroid gland with a tiny colloid cyst on the right. No concerning features.

**Dr James METRI**

**MBBS(USYD), FRANZCR**

Sonographer: S. Perrin (AMS)
