Thank you for seeing Mrs Rebecca Francis, age 38 yrs, for opinion and management.

Rebecca is a female patient who requires an updated cardiology report and specialist opinion on pericarditis and myocarditis following a COVID vaccination. This is necessary for her NDIS and vaccine injury compensation claims, which are part of an ongoing court case that has been active for 13 months.

Rebecca has a history of pericarditis and myocarditis, which she believes are related to her COVID vaccination. She needs your expert evaluation and opinion to support her claims for the NDIS and the government compensation scheme.

Your assessment and detailed report on her condition will be invaluable for her ongoing legal and compensation processes.
