Comments on Collection 05-Aug-24 1040:
Iron Studies
Normal Iron Status.

All patients with low or equivocal vitamin B12 results (400 pmol/L or less) will be routinely tested for holo-transcobalamin (active B12) to clarify the B12 status.
Both tests are now Medicare rebateable. Vitamin B12 concentrations over 400 pmol/L are generally considered replete.

Comments on Lab Id: 529428323

To support the significant changes to cervical screening we have created enhanced, risk stratified, colour coded reports which are available in either hard copy or PDF format.
If PDF functionality has been enabled in your practice management software, please see the accompanying PDF report.
For assistance with report preferences, please contact our Client Database team on 1300 767 284.
