Pathology report

DUDLEY, JESSICA
FEMALE, 1984-02-17, 3449846603
38 WRAY AVE, FREMANTLE WA 6061

Requested: 2025-02-11 12:13:00
Collected: 2025-02-11 12:13:00
Completed: 2025-02-11 07:40:00

Observations

Test	Value	Unit	Range
Serum Iron :	11	umol/L	11 - 27
TRANSFERRIN	27	umol/L	20 - 45
TRANSFERRIN SATURATION	20	%	15 - 55
Serum Ferritin :	52	ug/L	30 - 200
COMMENT	Low-normal ferritin may indicate adequate iron stores, but iron deficiency is not excluded as co-existing inflammation or acute phase response may falsely raise ferritin. Correlate with clinical state.		

Disclaimer

Laboratory results have been provided by an external provider (WESTERN DIAGNOSTIC PATHOLOGY - WDP_ULTRA) and an interpretation of these results is given here. InstantScripts bears no liability for the accuracy of these results. Please consult your doctor or make an online consultation request with InstantScripts to discuss any of these results. Raw result data is given at the end of this message.

301 86443206 Low-normal ferritin may indicate adequate iron stores, but iron
301 deficiency is not excluded as co-existing inflammation or acute
301 phase response may falsely raise ferritin. Correlate with
301 clinical state.
301
301 - As ferritin is influenced by acute phase responses results in the
301 lower-normal range (30-100) may not exclude iron deficiency.
301 - Ferritin levels >100 and < upper limit usually reflect adequate iron
301 stores.
301 - Serum iron is useless in determining tissue iron stores.
