[Click here to view images](#)**ABDOMINAL ULTRASOUND**

The gallbladder outlines normally with no evidence of gallstones. The biliary tree is not dilated and the common bile duct is measuring 3mm in diameter. The liver is normal in size and uniform in echotexture with no focal lesion identified. The visualised pancreas outlines normally. The spleen is normal in size measuring 8.5cm in span. Both kidneys are normal in size with no hydronephrosis or definite renal calculi. There is an 11mm cortical cyst within the left kidney containing some low-level internal debris. No ascites.

COMMENT:

The liver has a normal sonographic appearance and the biliary tree is not dilated. No evidence of gallstones.

Yours sincerely,

Dr. David Chadban
MBBS B.Med.Sc. FRANZCR
