

HOMOCYSTEINE, TOTAL

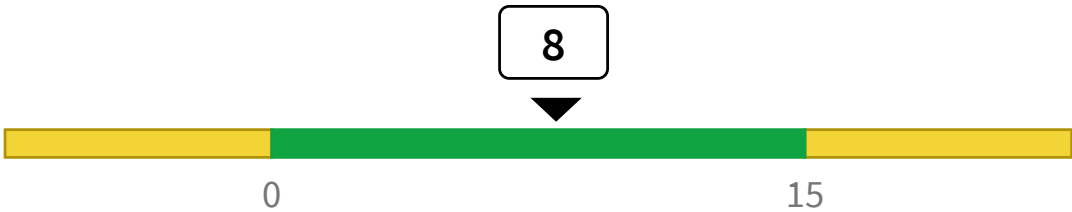

Collected on Apr 24, 2025 7:01 AM

 Not yet reviewed by care team.

Results

Homocysteine, Total

Normal range: 0 - 15 umol/L

INTERPRETIVE INFORMATION: Homocysteine, Total

Elevated total homocysteine (tHcy) concentrations may be associated with vitamin B12 deficiency, folate deficiency, or inherited disorders of methionine metabolism. tHcy may also be used as a weak-graded risk factor for cardiovascular disease or stroke.

Performed By: ARUP Laboratories
500 Chipeta Way
Salt Lake City, UT 84108
Laboratory Director: Jonathan R. Genzen, MD, PhD
CLIA Number: 46D0523979

Authorizing provider: Nicole Luehring, APNP

Collection date: Apr 24, 2025 7:01 AM

Specimens: Blood

Result date: Apr 27, 2025 4:05 AM

Result status: Final

Resulting lab:
