Patient: Michelle PERRY

Monitoring Period: 25/05/2022 - 30/06/2022 (36 days)

DOB: 02/04/1976

HeartBug No: 13090

Doctor: Mark Perrin

Summary Findings

The rhythm is sinus/sinus arrhythmia (HR 51-103 bpm) with infrequent intermittent short PR and intraventricular conduction delay (suggestive of ventricular pre-excitation) - differential includes intermittent bundle branch block. Rare atrial ectopics occurring in isolation and a non-sustained regular atrial run (4.8 secs., max HR 153 bpm). No sustained arrhythmias or pathological pauses.
