**Dear Ms Smith**

This **Upper GI endoscopy** was performed on **Wednesday, 29 May 2024**.

My impression is:

- **Z-line regular, 39 cm from the incisors.**
- **Multiple plaques in the middle third of the oesophagus and in the lower third of the oesophagus. Biopsied.**
- **Normal stomach.**
- **Multiple fundic gland polyps.**
- **Normal examined duodenum.**

My recommendations are as follows:

- **Await pathology results.**
- **Return to GI clinic at appointment to be scheduled.**

If we can be of further assistance, please feel free to contact the endoscopy unit.

Please see your doctor after 2 weeks to discuss the results.

Sincerely,

**John Ombiga, Gastroenterologist, MBBS FRACP**

Held

John Ombiga, Gastroenterologist, MBBS FRACP
