Oocytes Collected: Two (2)

OPU performed by: Dr James Orford

Oocytes Inseminated: Two (2)

Oocytes Fertilised Normally: One (1)

Embryos Transferred: Nil

Embryos Cryopreserved: Nil

We understand that this may be a challenging time for you and it's okay if you need additional support. You and your partner are entitled to a free consultation with a Fertility Solutions counsellor who may be able to help you work through this difficult time. You can either contact the counsellor directly to arrange an appointment, or notify your fertility nurse if you would like them to arrange a referral for you.

It is extremely important that you have a follow-up appointment with Dr Kelvin Larwood within the next 2-4 weeks. During this appointment Dr Kelvin Larwood will discuss your recent cycle and you will also be able to ask questions. You will need to arrange this appointment directly with Dr Kelvin Larwood's rooms. In addition, if you would like to speak with your primary nurse and/or scientist, a free follow-up appointment can be made by phoning 1300 FERTILITY. If you live outside the clinic area or have difficulty accessing the clinic during business hours, you can request the follow up with your specialist, nurse or scientist to be via Skype.

If there is anything that we can do to assist you both, please contact any member of the Fertility Solutions team.

Kind Regards,

Zoe Biggar

Scientist
