Autoantibodies

Anti-Nuclear Abs (ANA)	* Speckled Pattern (Titre 1:640)
Anti-DNA (FEIA)	<7 (<10) IU/mL
ENA Abs	Not Detected

Comments on Lab Id: 525953231

These findings alone are non-diagnostic, and may be seen in some autoimmune diseases, after some drugs as well as normal individuals. ENA screened for SSA Ro60, SSB (La), RNP, Sm, Scl-70, Jo-1, Ro52 and CENP-B.

If there is a high index of suspicion for Jo-1 suggest checking myositis line blot (a privately billed test).
