Dear DOCTOR CHUNG

Re: **MR TRAVIS HARVEY - DOB: 19/04/1990**  
4 Chester Court PETRIE 4502

**ULTRASOUND SCROTUM AND TESTES**

**Clinical history:**

? Varicocoele.

**Findings:**

The right testis is normal in size and homogeneous in echotexture measuring 40 x 33 x 20 mm with a volume of 14 cc. It has normal vascularity with no focal lesion.

The right epididymis is normal. There is a single simple cyst in the head of the right epididymis measuring 2 mm.

There is no right hydrocoele or varicocoele.

The left testis is normal in size and homogeneous in echotexture measuring 42 x 33 x 21 mm with a volume of 15 cc. It has normal vascularity with no focal lesion.

The left epididymis is normal. There are multiple cyst in the head of the epididymis measuring up to 3 mm.

There is no left hydrocoele or varicocoele.

The spermatic cord and the scrotal wall is are normal bilaterally.

Both kidneys are normal.

**Impression:**

Normal ultrasound scrotum and testes with no evidence of varicocoele on either side.

Tiny cyst in the head of both epididymis.
