Dear Dr Xue

Re: **Miss Rachel MASON - DOB: 31/08/2001**
9a Jinkana Grove ELTHAM 3095

CERVICAL AND THORACIC SPINE:

Clinical Notes: MVA last night. Complaining of neck and back pain. Check up.

Findings:

Cervical Spine:

There is a mild cervical scoliosis convex to the right side. Mild loss of the normal cervical lordosis. Vertebral body heights and intervertebral disc spaces maintained.

No bony encroachment upon the neural exit foraminae.

Prevertebral soft tissues appear normal.

Thoracic Spine:

There is a moderate upper thoracic scoliosis convex to the left side and mild lower thoracic scoliosis convex to the right side. Vertebral body heights appear preserved throughout the thoracic spine. Intervertebral disc spaces maintained.
