When you submit sensitive information via our website, your information is protected both online and off-line. Any website area where patient or customer information is displayed is secured by encryption-protected passwords, and transmission of sensitive information is protected using SSL encryption. This protects against the loss, misuse and alteration of the information under our control. This protects confidential information such as credit card numbers, online forms, and financial data from interception and hacking. Only FHS employees who have a business related reason to access your private health information have access to the data base that holds this information. The assessment of biological samples such as blood, dried blood spot and urine provided to by the health provider or patient to FHS are assessed using pathology, ion specific, spectrophotometry and biofeedback methodologies. FHS screening is not intended to diagnose, treat, or cure disease or illness, nor is it to be presented or construed, in any way, as a substitute for professional medical, surgical or psychiatric care or treatment. FHS reserves the right, at any time and from time to time, to update, revise, supplement, and otherwise modify their policies, procedures and screening and to impose new or additional rules, policies, terms, or conditions on your use of the service. Such updates, revisions, supplements, modifications, and additional rules, policies, terms, and conditions will be effective immediately. Your continued use of the Online Bill Payment System will be deemed to constitute your acceptance of any and all such terms.
