Fertility Blood Test (For Women)

Charmaine McCauley

Print Date: 2023-02-17

Total Testosterone ✓ Good

51.92 ng/dl
Normal Range: 6 - 86 ng/dl

Sex Hormone Binding Globulin (SHBG) ✓ Good

63 nmol/L
Normal Range: 18 - 144 nmol/L

Follicular Stimulating Hormone (FSH) ✓ Good

5.6 IU/L
Normal Range: 4.7 - 21.5 IU/L

Normal FSH level (for pre-menopause female)

Oestradiol ✓ Good

36.23 pg/mL
Normal Range: 30 - 400 pg/mL

Lutenising Hormone (LH) ! Low level

4.3 IU/L
Normal Range: 5 - 25 IU/L

Your LH is on the low side (for pre-menopause female). This may be due to malnutrition, stress or more rarely a pituitary disorder. Please see your doctor.

Prolactin ✓ Good

15.74 ug/L
Normal Range: 0 - 24 ug/L

Normal Prolactin level (for non-pregnant female)
