ERIN

MM problems

Rocky family M. side.

Relapse Jan '25

Big events

Rocky 2c b/f -

couldn't go back to uni as unwell.

- wt loss → in + out of ED

- run down

- flu

- sore

- extreme lethargy.

Unconscious but conscious.

? Glaucoma Dx - NAD

? PANDAS - neurological disorder

? MS

Sick when younger

18yo Dx

POTS

immune disorder

nerve syndrome

joint

Healthy till 11.

Moved to NSW from QLD

M. & bro moved to NSW

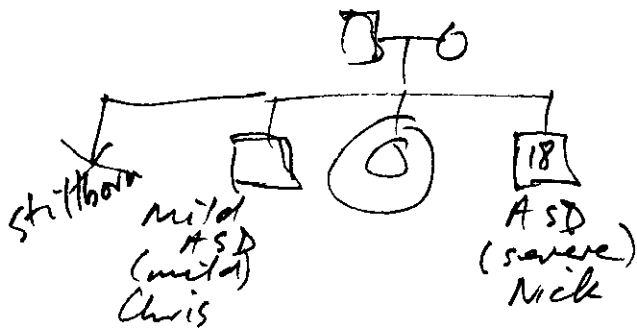

Started vomiting & abdo pain

Anorexia after high school (online)

F^o did biomolecular biology

→ studied homeopathy - wanted to study

Youngest bro ASD

M^r fed us take away 3 meals/day.

Parents together when we moved. He stayed in Q LA to work on the house.

12yo - we went to visit him. M^r broke up to him & took all the money

→ messy breakup. F^r had no idea

Nick got physical abuse + verbal from M^r + 9yo

1. got emotional abuse.

1 was the child no one liked

→ argue + fights

12/13 - therapy trying to work out how to get a connection

- moved b/w M^r, F^r + M GP's till 14

Don't talk to M^r + her family

Older bro & I really close;
When we moved to NSW (for Nick's special needs)
Favouritism started - Chris favoured by M^r + M GP's
Then he started to not like me.

Don't talk now

2023 - Roughest year

- sexually assaulted

hemolytic anemia prior
relat. breakup.

4 ward x 2

1 completely fell apart

Mat. aunt - I was close to her youngest child
Incident in (A. Debs) 1 → she cut me off. (Millie)

2021 - a yr later, I tried to contact Millie
(said Chris inappropriate when she was younger)
→ I backed off. My bro. didn't want to be
involved.

M. - MH issues: narcissist? B.polar.

Life been complete chaos since moved to NSW.

M. had problems connecting to us. She loved us.

M.'s family toxic

Parents had stillborn 1st baby.

BPD - Dx 2022 - Nepean Hospital.

Fo thought I'd been poisoned

Me + bro psychotic - laughing + crying sobs.

→ admitted TAC or PECC

Seen 4 out from 14 to 20

Medication

Seroquel + Largactil

Saw grad 4 → largactil. I'd been on so many drugs.

Bad problems sleeping

New 4 room via Dokotela.

Have to go through Centrelink + uni.

Youth Allowance.

Was on youth disability until 22 (cuts off)

Live in Fo in Ema Heights / b/f family in Kewmond.

Dating 1.5 yrs.

Inseparable; always together; v. close.

uni - Hawkesbury / Dukes Hill Campus.

Biology major in environment

+ plant science

Taking this semester out.

1 month where had daily fevers + sore.

Going to ED all the time.

49kg. Need to be 48kg to be 'underweight'

Gl tests - really weird test results.

Hospital said nothing wrong

Focused on exercise

I know something's wrong

→ broke my heart

Never fully recovered from anorexia

Days where I don't eat; days where over eat.

Days where I have little psychosis

?2° Fever to 41° most nights

BSLs crashed → glucose injections
(when in coma state)

(Nails bitten right down)

Mood - alt. b/w really high to low

Constantly triggered by little things →
withdrawn emotional state

B/F has anger issues

(he was adopted from Korea)

- massive party AOD. Now just THC.

He's solid; hard shelled; not emotional.

His anger's upsets me,

Hysterical breakdowns

AOD

THC - bad atm.

3-5g / day - from morning

Dec. - injured ankle - cut back of heel.

Achilles tendon lump

- massive shock.

overdoses in past

- 15 - when really sick, O/D

15 - PECC

R/O appendix

I'm sick, just want someone to listen.
Saw lots of specialists -

Common vestibular immune deficiency.
No immunity to many things

Get strep. + staph infections
- throat, sinus, ear.
