25 April 2024

Janine Bothe - Precision Health 'Induction' Plan

Initial Goals (as set 4/4/24):

By 4 July 2024, you would like to:

1. weigh 63kg
2. feel awake
3. run 6km without stopping

Precision Health Assessment: 12/4/24

HealthType™: Diplomat 300

Shae™ access ends: 11/5/24
(unless extended)

Food-Specific Recommendations (based upon Shae™ and your initial goals)

1. Meal Timings:

- a later breakfast - existing choice of breakfasts generally look great, with a small tweaking of some ingredients
- a later lunch as main meal - move your usual dinner choices to lunch time where possible
- eat veg only at dinner - moderate amount
- no snacks

2. Avoid 'red' foods eg soft drinks, white carbs, sugars, processed meats etc

3. Reduce alcohol - once/twice a month

Other Considerations

1. Precision Health Lifestyle Priorities

1	2	3	4	5	6
PLACE	GENIUS	FITNESS	FOOD	SOCIAL	MIND

2. Starter Recommendations for the Diplomat

- De-clutter spaces & places
- Own your schedule and work on your time
- Enjoy a later, stress-free breakfast
- Try to match exercise to your Fitness Clock
- Lunch is your biggest meal

Timeline/Appointment Overview

	Appointments	Action Steps	Overcoming Challenges	Success/Rating
Week 1:	12/4/24 Precision Health Assessment + Brief Intro of PH360/Shae platform	1. Explore ph360/Shae platform 2. Consider short term goal and action steps	N/A	N/A
