Leslie Meddle

Assaulted by female friend

She lived in van out front.

Lost my independence

She'd be out all night; disappear for days.

Told she had to leave.

She slapped me

→ called cops → AVO; known to them.

Had episodes where she said she'd o/p → had to call ambulances; mood swings.

Moved to house down the road.

Unnerving. Neighbours + I all put cameras up;

People coming + going day + night.

Am I a bad judge of character?

Impact

Thoughts all over place

- Keep busy so don't dwell on it.

Leave TV on all night or distract me.

Hard to concentrate; move from one thing to another

- If stop, memories there.

- They were so intense for months.

Then gone but still see them → reminders

F: disappointed. She called me Dad.

Had been friends for far years.

Mixed emotions.

Presented to TAL
