

6.12.29.

Michelle White

Full on time.

Not sleeping well.

Bought sheep. 3 + 1 Ram, who escaped.

Now fought him.

Dreams.

Climbed onto roof in ladder. On top - a big sea turtle.

Went down then up; but turtle not there

all kids down below - big room; Edward at feet;

Night | older woman there;

Serene.

Pack up time down below. (Play group)

F: Surprised something going on up there but so calm
- still; dark/dusk: peaceful.

(feel I miss that in life - all the chaos as kids go to bed late).

R: observing.

[turtle - forest green; Calm + quiet; still

Nice up there; no one wanting me or tugging me; a whole other world.

People in roof were men; putting scaffolding away. Ladies,
2 in we in it

Serene.

Went through lane way. Old house; went down lane way - you were there in dark. Calm.

I had Theo + Evelyn in me.

I can leave kids behind + sit in you.

Went there for long.

Instant bubble of serenity.

" felt relief

Cobble stones in moss.

A+ party + I was there, talking about kids, like
2 mether together. A long table. Lots of women there
I was telling something about my kids
like a friend talking to me.
I was having a release/ resolution
F: this is unusual. We can relate in a another way.
Boundaries are a problem - how much can you share as a
professional?
F: happy: relief to freely listen + talk to somebody
without having to think about safety.
It wasn't there.

Pregnant + waiting to go into labour. How am I pregnant?
Scared of being alone: or being by myself.

Little people that kept ~~people~~ ^{nature} alive.
Hayden had been in me, a composite, in cabin; outside slot.
I'd see little people's scream.
sheep, chook + dog - felt safe when they were there.
my guardian. - calm + safe

→ Only appeared when Hayden not there
Beaded necklace on belly.

F: flipped from scared to calm. not being able
to cope +
managed
outcome
Fear: only big person in the little people -
x know by myself; needing encouragement - support
x ^{so many} variables in independent thought
HG - big egg open wings to lead; make self bigger
than they are.

Surrogacy

- friend got Ca of uterus age 24 → hysterectomy;
Distracted as wanted kids. Put 4 eggs away.
She's now 40. still in contact. Planned for her 5th to be
her surrogate.

Do that to people to - then hug them.

Connection to dreams.

x Looking for place of peace & calm; hard to maintain in everything can go so well & suddenly not; can't predict the curve ball.

Often dream of neighbors
- our properties become me. Big family; lots of people & we get drawn into it.
F: love & acceptance; no tension or questions

In life - disagreement & boundaries & lines even tho clear. But always lots of

Chicken pen is my calm place.

Run away from craziness.

New friend at play group - went to new art group.

Both identify as socially anxious.

So lovely to do adult thing without kids.
