

19.11.24 Noach.

Did audit in

Amazed at STOG re admissions pre or prior times
Melbourne tomorrow

Dr Dalley today → to retrain

Slump after Melbourne - what am I doing here? (in Syd.)

Frustrated to return to Sydney

Dwayne - feels v. normal - 2 people sitting together.
Scared to commit; indicated by his certainty.

Thoughts can run really good.

Leading up to audit in, v. nervous prior.

Forgot words for monologue.

Liked the environment & people

Might look into

Everyone has a

Glass ceiling -

workplace shattered that ceiling; new company/start up.

Didn't believe it was real.

No one knew how to help me

Responsibility investors not believable
applying for jobs → unsuccessful; lots of msg of not good enough

Corporate governance &

Same as running a kingdom

Nervous I'd be held accountable for things I did when
groomed.

medium - become part of that culture → incriminated →
don't want to talk about it.

Really disappointed in Melbourne. Wait there following
someone else down

Gay bar - fired

Product - fired for not being girly enough

Shattered glass ceiling & can't put my world back together
Need to believe I'm valuable; that I can do a job.

No fight left.

Grooming.

Taught me to shut things out.

Things I wasn't allowed to tell anyone

I knew it was wrong

→ feel like a bad person

think I have sex addiction

⊕ Nicotine

There's some form of magic

But need to set a glass ceiling; not every fantasy is real.

Glass Ceiling

- Choc. Factory - elevator through glass ceiling → rocket ship → back to past

- Pandora's box; complications for smashing the glass but also beautiful.

Reality - free falls have to put it back delicately
Not meant to put it back on your own.

Exp inside

When there - 1st person view; blinders on; running a race; know the direction; spurred on; going forward
Then blinders off & can see many other ways to go
I'm on my own too much; don't know who my people are → overwhelming as pre-programmed to a right way.
Need to run; to do something.
Need to get back to being in society.

⊕ certainty.

Conc. life doesn't have certainties;

? Ceiling shattering

- that was the psychosis. had get me

Thought boss was in outer space; ~~was~~ is a UFO

Need to ~~keep~~ if I told anyone.

(a few days)

v. paranoid. Believed that at the time.
(coming off docis) Hypo fixated on how to go to space.

Now - believe I'm still not meant to know.

Got paranoid in covid that people went to space.
Know it's not really real, but little voice

Believed I'd be beamed up in the next phone call.
Living in an musical theatre
'Noa's space opera'

Running a Kingdom

Beig a good quest - (keep the king in line).

Jobs to make people feel close to king
Represent all people to king

The game of family structure - try & run that
a little kingdom

The more you can look after, the bigger Kingdom you get.
Play the game of king or queen or you die
Metaphor for life

Now I feel like a king or queen & shut myself from everyone
if I connect, I'll be taken advantage of.

Queen - mouth piece & centre of authority

'Andy' - trans queen

Walked into last job as a queen & felt I had to be a king
as gender role defined.

Queen responsible for culture

King " for time for culture to exist.

Made my choice to be non-binary now it seems
silly.

Binary is set up for collaboration & working together
Feel like non-binary

Don't know how to rectify that is myself.

Can't be both or neither.

Image: straight line

Black: on white

Can see the ends of it

Page has no ends

white is a line.

v. simple but not blank

Stands tall

one side + another

but also around

S: spiralling around the line

A: wall

- stopping me move from one side to another freely

Have to go around.

Line is not real; but is.
