Gold Coast - really lovely. Being in ocean  
felt closed in back - flat + Hawkesbury.

Exec. Labor party - won; back in. Huge.  
Want me reinstated. + to do fund raising.  
I miss it, alt. I hate it

Grossly confused over the male  
He called her his home + now searching for a home.  
was going strongly online.

One coffee meeting made me feel unsure.

- alcohol problems

- way he talks about women

→ pulled away; + he pulled away → hurt  
visions:

I can see in place of nursery; horrible to look down on  
Grieving; missing the niceness we had there

Feeling abandonment.

Always do this - obsession, burst of fantasy, but  
all shut.

telling self to not engage I'm him

Feel relief. dodged a bullet.

Other days, feel strong + good; came out still  
friends.

All confused I'm being friends

Take things the wrong way - + think he hates me

I think he's a good one to stay away from romantically

I miss the nice moments

Don't want trouble

" " someone in my space

Haven't talked to him about it. Fear to + not

sure I want it

try not to think about it

Survived to get

strong

determined

See what needs to be done + do it

Fearless; in the zone.

Hard to believe in that person

another part quivering in the corner.

want want life to look like

little home in garden - my house  
Secure home in no agent checks.

Free to create

Community - what could I do in community  
be in the Hawkesbury

like my flat but not my own.

Living my best life atm.

Want to travel - Iceland; Antarctic; wilderness, HLG  
Scotland - stunning; w/d.

(still self-doubt to fund raise - knot in stomach)

Don't know what I really want to do.

coffee dates; plotting

(Don't want to do much; but don't want to do  
nothing)  
start for HLG to stomach

Would love someone who

x took an interest in me

x cuddles

x bouncing ideas; intellectual stimulation

x companion

(He's not it)

x social

Scared of picking another wrong one.

He's bad for me, I want him.

Friends - have what I need

x make me feel I'm special

x live separately

x arty & creative

x social justice

x calm

x human

x cook

x ok in alcohol

x good w/h.

x understanding

x not womanised

x romance

really nice knowing someone's there you can  
rely on; a comfort.

I'd feel relaxed + happy

Look forward to the weekend

Relief + comfort

Waking smiling + more relaxed + happy

Less worried + cranky

A clear pool

Relaxed

Relaxed neck + spreads down

It's a constant; will stay; faith + trust +  
companionship; know each other;
