

PEA (Palmitoylethanolamide)

A cannabimimetic compound

Pack Size: 50 and 100g oral powder.

Directions for use: 1 firmly packed level scoop = 500mg of powder, equivalent to 300mg of PEA. For use in compounding.

Storage Guide: Store below 25°C in a cool, dry place.

Often used in conjunction with:

- BioFlam
- CurcuForte®
- HistEase®
- Imrex®
- Omega Ease
- Pure Liposome Curcumin C3 Complex®

Product Highlights

Pure ultramicrosized PEA

Vegan and vegetarian friendly

Flexible dosing

Now in two flavour options for optimal compliance: natural berry and lemon lime

Good safety profile (endogenously produced)

Made with non-GMO lecithin

Strictly Practitioner Only

Formulated and comprehensively tested in Australia to GMP standards.

Each 500mg (one level scoop) of PEA berry contains:

PEA (Palmitoylethanolamide)	300 mg
Lecithin (Sunflower)	168.1 mg
Natural raspberry flavour	17.5 mg
Beetroot powder	10 mg
Natural vanilla flavour	2.5 mg
Thaumatococcus	1.9 mg

Each 500mg (one level scoop) PEA lemon lime contains:

PEA (Palmitoylethanolamide)	300 mg
Lecithin (Sunflower)	185.6 mg
Natural lemon lime flavour	12.5 mg
Thaumatococcus	1.9 mg

High quality, ultramicrosized PEA; 99% of particle sizes are smaller than 10µm, and 50% are smaller than 3µm.
